## Instruction

Part I:

- Download the file `final_proc_template.py` to your computer
- Run:

```
python3 -m doctest final_proc_template.py
```

- You will discover that all cases fail as there is no implementation to any of the functions. Your job is to fill in the appropriate code for the functions in this file.
- After you are done, run:

```
python3 -m doctest final_proc_template.py
```

If there are no errors being reported, you are done with Part I.

Part II:

- Download the file `final_obj_template.py` to your computer
- Complete the code for the Person class
- Run:

```
python3 final_obj_template.py
